MEDICAL.

Dr. Miles' Nervine Triumphs.

Excessive Nervousness from Childhood. La Grippe Brings on Heart Weakness.

R. P. SEAREY, pastor M. E. church, Buchanan, Ga., writes Dec. 10, 1896: "In childhood I was affected with excessive nervousness which, almost developed into St. Vitus dance. I partially recovered, but at college it gradually grew worse. Close study aggravated the trouble; any unusual exertion caused trembling all over. In 1890 I had a severe attack of La Grippe which brought on heart weakness. I had been almost constantly under treatment for nervous troubles, and changed climates frequently without avail. Last February I began taking Dr. Miles' Restorative Nervine and Nerve and Liver Pills and since then I have been studying more and working harder than for years and the good effects that have resulted seem to be permanent."

A BRITISH BLAST.

Ridder: the Cuban Sympathizers in this Country—London Press Comments.

LONDON, Dec. 15.—The Times today, commenting on the Cuban situation, expresses the hope that the Spaniards will "continue to disregard the vituperation of the Jingos senators and addling."

The American government maintains a correct and neutral attitude and as long as it does so Spain can afford to smile at Senator Chandler's off-hand recognition of the Cuban rebels.

The Globe this afternoon says:

"When these wild men rave at England, British feeling regards them as amusing lunatics whose grotesque antics do not carry danger to either country. But the Spanish are more easily inflamed to anger, and there is some danger of Spain falling into the trap when the practical Laurada reaches Valencia. Spain has endured much contumely from the great republic; but there are many indications that this passive submission to insult will not last much longer. It would be well, therefore, for the Washington government to place restraint upon Senator Chandler and his colleagues. If Spain decided to uphold her honor by arms, a naval war might have results not at all agreeable to the American Chauvinists."

ITALIAN FRUITS.

Orange Crop Promises Well-Effect on Our Shock Industry.

WASHINGTON, Dec. 15.—An estimate of the coming Italian orange crop is supplied to the state department by United States commercial agent Huntington, at Castellamare. He says the outlook for the new crop of Sorrento oranges promises well to us, keeping quality, size and color. The quantity will be about two-thirds of an average crop. The first cut commenced November 15, prices opening at from \$1.50 to \$1.60 per box, and the first shipments will reach New York in time for the Christmas trade. The new crop of lemons exceeds that of last year, and the quality is very fine. Gathering will begin in May. The importation of shucks from America to make orange boxes has developed enormously, and to prevent a loss to the Maine producers, Mr. Huntington suggests that a duty be placed upon boxes made of foreign wood. A duty on the fruit itself, oranges and lemons, however, would destroy the trade entirely and deprive the masses of the United States of faithful, cheap fruit. The walnut and albert crops are short in quantity, but excellent in quality.

The Lemon Case.

Special Dispatch to the Intelligencer.

SISTERSVILLE, W. Va., Dec. 15.—The report of the Lemmon murder trial, which appeared in to-day's Intelligencer, fails to do justice to defendant or the jury. While the case is surrounded by mystery, everything was done by the state to convict. The state was represented by Anthony Smith, prosecuting attorney; Colonel H. F. Freer, judge-decree; F. D. Young and C. V. Corte, J. W. McIntire, of the Wetzel county bar, and R. L. Moore, of this city, appeared for the defendant.

The fact is that the conservative people here think that the verdict of the jury of "not guilty" was the only verdict which would have been sustained by the court. It was shown that a man ran from the Lemmon house within two minutes after the shot was fired, while Lemmon appeared at the Lester house house with his baby in less than five minutes after the shot which killed his wife.

War in the Philippines.

MADRID, Dec. 15.—A dispatch received here from Singapore says that the natives of Mindanao island, one of the Philippine group, have revolted and that many of the native troops are deserting to the insurgents.

It is further stated that the situation at Manila is full of anxiety. Bands of insurgents frequently approach the town and at night fire volleys into the place. A dispatch to the Impartial from Singapore admits that there has been a general massacre at Cavite, the fortified seat town of the island of Luzon. It adds that one hundred and fifty of the prisoners revolted, killed six soldiers, seized arms and tried to raise the native inhabitants against the garrison. Continuing the dispatch states that the revolt failed, the rebels were shot down in the streets and a general massacre followed during the night. Scores of corpses were picked up and many of the prisoners who were recaptured were shot the following morning.

A Radical Resolution.

WASHINGTON, D. C., Dec. 15.—Representative Woodman, of Illinois, introduced a joint resolution directing the President to intervene in Cuban affairs. The resolution, after reciting General Macero's assassination and Spanish cruelty in Cuba, says that the President has failed to carry out the wishes of the people, that the honor of the United States is at stake and that history gives no precedent on which to base a hope that Spanish operators will change to compliance with civilized warfare. The President is directed to express severe condemnation of the Spanish methods of warfare, especially the murder of Macero, to demand the independence of Cuba and to demand of Spain the withdrawal of all troops from Cuban soil. He is also directed to take proper steps to see that this demand is carried out.

One of the Robbers Captured.

ST. LOUIS, Mo., Dec. 15.—Walter Jackson, a cigar maker, has been arrested on suspicion of being one of the men who held up and attempted to rob the Iron Mountain train in this city on the night of December 3. Police officials claim that it is an important capture, and will lead to the clearing up of the mystery, and to the identity of the other robbers. The prisoner admits that he was about the railway station the night of the hold-up, and the police have a witness who saw him at Tower Grove station, a short time before the train was held up and who also claims that he saw in Jackson's possession some sticks of dynamite.

Mr. Jackson is in jail.
